PROFESSIONAL EXPERIENCE

Business Analyst *(Remote- par-time)* – AMDARI **April. 2026 – Present**

- Leverage excellent proficiency in collaboration tools (Wrike) and project management tools (Jira, Trello) to communicate frequently with team members and stakeholders, giving status updates on every business development stage.
- Working closely with the development team to ensure clear comprehension of requirements, offer clarifications as necessary, and actively engage in the testing and quality assurance process.
- Identifying and thoroughly documenting the project's scope, objectives, and constraints while defining key performance indicators (KPIs) to assess the solution's success.
- Creating a detailed Business Requirements Document consistently, gathering functional and non-functional requirements to align the project's objectives with business goals.
- Compiling user stories to capture functional requirements effectively facilitates open discussion and accord among stakeholders and development teams.

Coordinator, Education – (Retail council of Canada) Toronto, ON **Oct. 2023 – Present**

- Coordinate and manage online training programs (e.g., foodwise food safety, retail certifications)
- Upload, maintain, and monitor courses on the Learning Management System (LMS).
- Support course scheduling, enrollment, and participant communication.
- Leveraging excellent knowledge of data analysis tools like Excel to track training performance, registration rate, completion rates, and learners feedback.
- Generate monthly report and insights to improve course delivery and user experience.
- Assist in marketing and promotion of training programs.
- Work with internal teams and external stakeholders to update course content and materials
- Collaborated with the IT team to create an automated grading system to help streamline learners' exam grading processes.

Administrative Assistant– [ISN] Lagos, Nigeria **Jul. 2019 - Jun. 2023**

- Supported business operations by analyzing administrative workflows and identifying opportunities to improve efficiency and process effectiveness
- Supported system and data management activities, ensuring accurate input, reporting, and record maintenance.
- Facilitated communication between departments to improve collaboration and resolve operational issues.
- Tracked key activities, deadlines, and operational tasks to improve visibility and accountability across teams.
- Gathered, organized, and analyzed operational information to identify trends, gaps, and areas for improvement.
- Maintained accurate records and databases, ensuring data integrity and accessibility for operational decision making.
